

Personal Data

The protection of personal data is important to us. When you communicate with EQRC, the personal data transferred in the process is used for the specified purposes only. However, we would like to point out that data transmission over the Internet (e.g. communication by e-mail) has security gaps and cannot be completely protected against access by third parties. Personal data transmitted by you will only be used within our project. No data will be passed on to third parties. In the event that personal data is collected, we will always provide you with access to the stored data. You can always access your personal data through your profile and change the information shared with EQRC, the community and those publicly available. The user can withdraw its consent to the processing of hers/his data at any time. For any specific inquiry, please send an e-mail to info@quantumready.eu.

In compliance with the principles of correctness, lawfulness and transparency as well as the protection of confidentiality and your rights, we provide you with the following information:

- Data Controller: Aarhus University, Nordre Ringgade 1, 8000 Aarhus, through Institute of Director: sherson@mgmt.au.dk
- Data Protection Officer of CNR: e-mail address: sherson@mgmt.au.dk

Information on data transfer to the USA

Among other things, tools from companies based in the USA are integrated into our website. If these tools are active, your personal data may be transferred to the US servers of the respective companies. We would like to point out that the USA is not a safe third country in terms of EU data protection law. US companies are obliged to release personal data to security authorities without you as the person concerned being able to take legal action against this. It cannot therefore be ruled out that US authorities (e.g. secret services) may process, evaluate and permanently store your data on US servers for monitoring purposes. We have no influence on these processing activities.

Where this is possible and reasonable, we prefer contractual partners who use servers in the European Union or other safe countries for our data in accordance with the EU data protection level or agree standard contractual clauses with us that exclude data transfer to US security authorities that does not conform to EU law.

Google Analytics

This website uses Google Analytics, a web analytics service of Google Inc. ('Google'). For further detail on the nature of cookies please visit the [Cookie Policy page](#).

Changes to our Privacy Policy

To keep our Privacy Policy in line with the current legal requirements at all times, we reserve the right to amend our Privacy Policy when necessary. For your own protection we recommend that you check the Privacy Policy on a regular basis. By using our website, you accept our Privacy Policy and its updates.
